01 · SUMMARY

Product Designer and Design Engineer with **4.8+ years of experience** shipping **AI-powered SaaS products** from **0 to 1** across **legal tech**, **e-commerce**, and **enterprise platforms**. Strong in **UX strategy**, **interaction design**, **design systems**, **prototyping**, and **product delivery**, with **front-end engineering** skills that help turn product decisions into scalable, production-ready experiences. Track record of **reducing user friction**, **improving conversion**, and **accelerating delivery** through **reusable systems** and **AI-assisted workflows**.

02 · EXPERIENCE

OMNIS AI LLC

Dec 2024 – Jul 2026 · Texas, USA (Remote)

Product Designer / Design Engineer

- Led **end-to-end product design** across **7 AI-powered legal tech products**. Owned **UX research**, **interaction design**, **prototyping**, and close collaboration with founders and engineering.
- Built and scaled the **Omnis Design System** across the product ecosystem. Established a **unified component library**, **token structure**, and **interaction patterns**, reducing UI inconsistencies by **40%** and cutting new-feature design time from **days to hours**.
- Streamlined complex **legal case-management workflows** from **8 steps to 3**. Improved internal operational efficiency by **25%**.
- Created **AI-powered design automation tools for UX QA**. Replaced **4+ hours of manual design QA** per sprint with automated staging reviews and Slack-delivered annotated reports.

LETMEGRAB

Jan 2023 – Dec 2024 · Surat, India (On-Site)

UI/UX Designer & Researcher

- Owned **end-to-end UX** across **seller, customer, and admin platforms**. Partnered with product managers and engineers from **onboarding through checkout**.
- Redesigned seller onboarding and checkout flows. **Increased conversion by 18%** and **reduced drop-off by 22%** through simplified form sequencing and contextual defaults.
- Established **reusable component libraries** and design patterns. Accelerated new feature development across **3 platform verticals**.

EARLIER ROLES

Photoshooto (UI/UX Designer, 2022–2023) · EngineerHUB (Jr. UI/UX Designer, 2022) · Kartexa Pvt. Ltd. (UI/UX Design Intern, 2022)

- Designed **user-centered web and mobile experiences**. Worked across **SaaS**, **e-commerce**, and consumer products with product managers and engineers.
- Built **interactive prototypes** and **scalable UI components**. Improved usability through research, testing, and iterative design.

03 · SELECTED PRODUCT WORK

OMNIS AI PRODUCT ECOSYSTEM

Mar 2025 – Present

- Designed the full suite of **AI-powered products for law firms**: CasePro CRM, MedChron AI, CaseNotes, LitBox, NotaryNow, OmnisProof, and AI Agent.
- **CasePro CRM – AI-powered case and client management**. Smart intake, timeline views, and automated task assignment for litigation teams.
- **MedChron AI – Medical intelligence tool**. Extracts, organizes, and summarizes medical records into chronological timelines.
- **CaseNotes – AI-assisted note-taking system**. Captures, tags, and links case-related notes to documents and clients.
- **LitBox – Centralized litigation workspace**. Brings documents, deadlines, and team collaboration into one interface.
- **NotaryNow – Remote online notarization platform**. Identity verification, live video sessions, and e-signature workflows.
- **OmnisProof – AI-powered document review and proofing**. Flags inconsistencies across legal filings before submission.
- **AI Agent – Conversational AI assistant**. Supports document search, task automation, and workflow guidance across Omnis products.

OMNIS DESIGN SYSTEM

Dec 2024 – Present

- Architected a **cross-product design system** used across **7+ products**. Created **scalable component architecture, design tokens**, interaction patterns, and documentation.
- Established **contribution and versioning workflows**. Enabled designers and engineers to ship consistent UI without bottlenecks.

AI UX AUDIT ASSISTANT

Jan 2026 – Present · [View Repository](#)

- Designed and prototyped an **AI agent for staging audits**. Identifies **usability, accessibility, and visual consistency** issues before release.
- Built an **automated reporting pipeline**. Delivers annotated HTML reports with actionable developer tasks via Slack, replacing **4+ hours of manual QA per sprint**.

04 · CORE SKILLS

Product & UX – Product Design, UX Strategy, User Research, Interaction Design, Design Systems, Prototyping, Information Architecture, Accessibility, UX Writing

Research & Validation – User Interviews, Usability Testing, Heuristic Evaluation, Journey Mapping, A/B Testing, Behavioral Data Analysis

Engineering – HTML, CSS, GitHub, Workflow Automation, AI Prompt Engineering, Data Visualization

AI & Tools – AI-Assisted Design Workflows, Generative AI Prototyping, Figma, Framer, Photoshop, Illustrator, Jira, Notion

05 · EDUCATION

B.TECH – COMPUTER SCIENCE & ENGINEERING

2023

Ajay Kumar Garg Engineering College
